

## NoteCart Unifit 12 Laptops

Sliding shelves

NoteCart Unifit 12 is a mobile storage and charging solution for 12 laptops.

NoteCart UniFit is a mobile cabinet for storing and charging laptops, Chromebooks and similar devices on 12 sliding shelves.

Henning Larsen Architects are behind the Nordic-inspired aesthetic design of the NoteCart UniFit series, a design with rounded corners that will fit into any environment.

The four wheels on the NoteCart UniFit series have been developed to be extremely robust at the same time as they complement the rest of the design, so that the NoteCart is easy to roll - regardless of the weight of the many laptops/Chromebooks and the type of flooring under the mobile cabinet.

During operation, all electronic parts and power adapters are stored in the locked space behind the steel cabinet so that only the person in charge of IT has access to them. A secure cable management system ensures that the cables stay in the cabinet once they have been installed.

## NoteCart Unifit 12 Laptops Solutions

- Designed with sliding shelves for storage, charging and transport of up to 12 laptops, Chromebooks or similar devices.
- The cabinet is sturdy and easy to transport on its rubber wheels, which have been thoroughly tested. 2 wheels are equipped with brakes.
- Strong handles on the sides make it easy to push and move the steel cabinet.
- The cabinet has a cable system which ensures that the cables do not disappear and that they are stored clutter-free.
- The standard key locks on the front and rear doors mean that devices are stored safely. On demand locks can be mechanical or electronic code locks.
- The fan ensures that devices are charged without the temperature rising unnecessarily.
- The Unifit Series can be customized to include a Thermostat to program and control special ventilation periods on demand.
- The Unifit Series can be customized to include a Timer to program and control special charging periods on demand.
- The Unifit Series is equipped with an RJ45 contact as standard and on demand the can be customized to include a switch bracket on which you can mount your preferred switch which will ensure your cable access to all devices inside the NoteCart.

### DEVICES

Laptops, Chromebooks and similar devices

Designed for devices with a maximum thickness of 55 mm (see dimensions on page 3).

### OPTIONAL PURCHASES

NoteSecure - Item no. NC-O-SECURE

Mechanical combination lock -  
Item no. NC-O-CODE-MAN

Thermostat - Item no. NC-O-THERMO

Timer - Item no. NC-O-TIMER2

### ITEM NUMBER

NoteCart Unifit 12, Sliding shelves  
Item no. NCU-12-SH-SC

1. Storage, charging and transportation of up to 12 laptops on 12 shelves, on high-quality wheels with ball bearings.
2. Designated space behind the cart for storing power supplies, power panels and fan.
3. Sliding shelf in action.
4. Sturdy handles, on/off switch and cable holder on the side.
5. Key locks on the front and back doors are different (2x2 keys included).

# NoteCart Unifit 12 Laptops, Sliding shelves

## Technical specifications

Part Number: NCU-12-SH-SC

<b>EXTERIOR DIMENSIONS</b>		<b>SLIDING SHELF DIMENSIONS</b>	
Width (incl. handle)	625 (805) mm	12 shelves	
Depth	625 mm	Width	535 mm
Height	1065 mm	Depth	385 mm
		Height	55 mm
<b>WEIGHT</b>	76 kg	<b>MAX. WEIGHT PER SHELF</b>	25 kg
<b>LOCKING SYSTEM</b>		<b>SHELF TECHNICAL COMPARTMENT, DIMENSIONS</b>	
Front door lock	3 point lock, 2 keys included	Width	295 mm
Back door lock	Standard key lock, 2 keys included	Depth	120 mm
		Height between shelves	115 mm
<b>CABLE MANAGEMENT</b>	Yes	<b>VENTILATION</b>	Active fan, 36 dB with 2600 RPM CE/RoHS
<b>CONNECTING CABLE</b>		<b>WHEELS EN-12532 CERTIFIED</b>	
Power connector output	C19, max. 16 AMP input	Material	Elastic rubber, strength 75 shore A
Cable length	1.8 m	Type	Ball bearing
		Capacity	150 kg per wheel
<b>CHARGING</b>	AC	Diameter	100 mm
<b>MAINTENANCE</b>		<b>ELECTRONICS</b>	
Recommended maintenance	Wipe with a damp cloth	Main power panel	Voltage: 230 VAC 50/60 Hz Current: 16 A/10 A, max 3680 W Connectors: 4 x C13 per connector with 3 sec. delay
<b>MATERIAL AND COLOUR</b>		Power panel	12 sockets: Voltage: 25 VAC 50/60 Hz. Current: 10 A, max 2500 W. 5A fuse per 4 sockets. Number of groups: 4.
Cabinet/top	Stainless steel, black and grey powder coating		
<b>DISPOSAL</b>	According to local standards	<b>PACKAGING</b>	Cardboard packaging, disposable. 100% recyclable

### Certifications

Wheels: EN 12532 certified  
CE

### Guarantee

2 years on the electrical components, 5 years on the body
